

Our Quality Improvement program — dedicated to excellence

First Choice by Select Health of South Carolina has a Quality Improvement program dedicated to excellence in clinical and service areas important to you. Each year, we evaluate ways the plan can improve.

MEMBER EXPERIENCE IS A PRIORITY

We thank our providers for your efforts to improve First Choice member experiences. In our 2018 Consumer Assessment of Healthcare Providers and Systems (CAHPS®) child survey, sent annually to parents or guardians of our members who are children, 91 percent of parents or guardians said they had good experiences with their children's personal health care providers, and 92 percent rated our health plan favorably. The CAHPS survey helps to identify areas in which our plan can continue to improve.

In 2019, we will collaborate with providers to improve our CAHPS scores. Below is a snapshot of our 2018 results:

- 98.01 percent of parents or guardians surveyed said their children's health care providers showed respect for what they had to say.
- 94.57 percent parents or guardians surveyed said their children's health care providers explained things in a way they could understand.
- 68.66 percent of parents or guardians surveyed said their children's health care providers talked about reasons they might not want their child to take a medicine.

RECOMMENDED PATIENT EXPERIENCE IMPROVEMENT TIPS

- Develop patient education materials that explain the pros and cons of commonly prescribed medication (such as asthma or high blood pressure medications or statins).
- Discuss the benefits and risks of taking a medication.
- Discuss each patient's preference on what medication would be best.
- If the patient is not getting positive results, discuss alternate medications.
- Discuss why the patient may need to stop taking a particular medication.
- Listen closely and explain things in an easy-to-understand way to ensure you address all the patient's concerns and the concerns of parents or guardians.
- Verify medication is on the formulary and inform parents or guardians of delays due to prior authorization requirements.

Thank you for supporting our efforts to continuously improve care for our members. The 2018 CAHPS survey results are provided in the chart below. The CAHPS survey results and HEDIS quality measures data are also available on our website at: www.selecthealthofsc.com/pdf/corporate/hedis-quality-data.pdf.
